WEB WORKFLOW

9/2014

## MAC vs. PC

Mac Mini \$599 - Bring your own monitor, mouse and keyboard.

## SPEEDUP YOUR KEYS

Mac Settings:

System Preferences > Keyboard, Keyboard tab:

Key Repeat: Fast

Delay Until Repeat: Short

Windows Settings:

Control Panel > Keyboard, Speed Tab:

Repeat Delay: 3 out of 4

Repeat Rate: All the way to Fast

## UNIVERSAL KEYBOARD SHORTCUTS

A keyboard shortcut is a way to invoke a function in OS X by pressing a combination of keys on your keyboard. Mac and PC have different function keys:

Mac Function Key: Command Key

PC Function Key: Control/Ctrl Key

Press and hold the Command key on a Mac, or on Windows the Ctrl key and then press the letter - ex. Ctrl + Z to undo the last edit you made in a text editor.

C - Copy

X - Cut

V - Paste

P - Print

N - New File/Document

Z - Undo

A - Select All (text in a page or document)

S - Save

Shift + S - Save as (Save as another named file)
